This request includes, by way of illustration, the following categories of information for each of the above-referenced fiscal years 1. Any data, factors, or calculations aside from those set forth under 29 U.S.C. § 796f that determined, in whole or in part, the allotments for each State to be made pursuant to 29 U.S.C. § 796f. These data, factors, or calculations including costs for program data systems, grants systems, grant review, a Secretary's transfer, and/or a transfer for administrative purposes 4. Those funds expired on September 30, 2015. Some grants had been told by the Department of Education that the funds would be available for 90 days after the expiration date to reimburse obligations made before that date. Unfortunately, that guidance was not accurate." 7. The total amount of funding that centers for independent living attempted to draw from the U.S. Department of Education (or its sub-agencies) or the ACL after September 30, 2015 to reimburse 2015 expenses 8. The underlying data and ACL's calculation that supports the statement in the August 2017 FAQ that "9 CILs in 14 states would lose a total of \$559,000 if no action was taken." 9. The amount of funding ACL diverted from fiscal year 2016 to "make up for the shortfall" discussed in its August 2017 FAQ 10. The amount and sources of the "other resources to offset a significant portion of the shortfall" discussed in the August 2017 FAQ 11.
